Welcome to Staffangymnasiet!

Staffangymnasiet is the only upper secondary school in the municipality of Söderhamn.

Staffangymnasiet offers education where Good Knowledge, Influence, Internationalisation and Entrepreneurship are in focus.

- Approximately 1000 students between the ages of 16-19 attend their studies at Staffangymnasiet.
- We have approximately 110 employees working at the school.
- The school has a director of the upper secondary education and three principals, one for each sector.
- We offer twelve national programmes with twenty one alignments and the Individual programme and the Apprentice programme.

Our vision

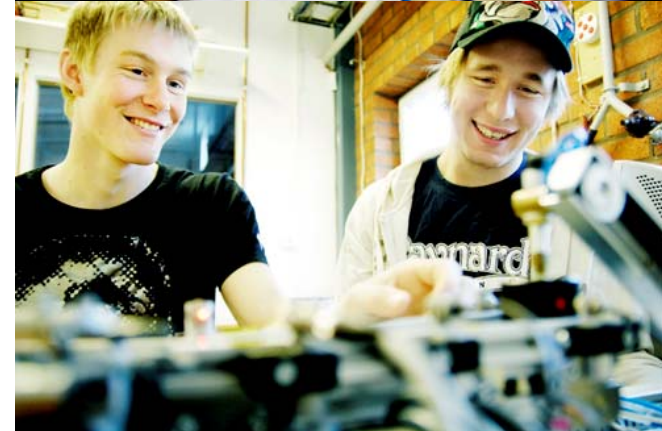

At Staffangymnasiet learning is the most important source of inspiration and the driving force for engagement, innovation and development. Lifelong learning leads to the development of individuals, for them to get jobs, create jobs and contribute to the society's growth.

At Staffangymnasiet the students have access to an education and learning process that is in agreement with their needs.

Our school has a comforting and secure environment. With competent teachers we maintain and offer a high quality upper secondary education. We have good access to technological tools and the students' studies can be combined with sports.

With approximately 1000 students attending their studies at Staffangymnasiet the school still have the charm of a small school where a friendly and quiet environment is offered.

We offer all of our students an educational trip to Europe to widen their horizon and give them the chance to obtain a better understanding for other cultures and improve their interest for other languages.

Our profile

Good Knowledge, Influence, International and Entrepreneurship

Good Knowledge

The fact that our students accomplish good grades is considered our premier task. Their education is adjusted to their needs. Our goal is for them to reach at least passing grades in all of the courses that they have chosen and receive their diploma on their graduation day.

Influence

We listen and value their opinion. Here they have the opportunity to influence their time spent in school, planning their courses and the choices of educational tools used in their learning process.

International

Our students have many options when it comes to travelling and obtaining contacts in Europe and other parts of the world. Through projects and scholarships our students can experience other languages and cultures by vocational training and educational trips outside the Swedish border. We also offer and encourage our students to study a third language.

Entrepreneurship

We help our students to identify and improve their strength. We teach them to take action over making their own decision in different situations. We give them the key to find solutions, be curious and daring.

Range of programmes

We offer twelve national programmes with twenty one alignments and the Individual programme and the Apprentice programme.

- Construction programme
- Electricity programme
- Vehicle programme
- Industry programme
- Apprentice programme
- Media programme
- Social science programme
- Child and recreation programme
- Business and administration programme
- Natural science programme

Combine sport and entrepreneurship with programmes

- All of our programmes can be combine with a sport. Staffangymnasiet is also a table tennis upper secondary school and a qualified football upper secondary school.

- At the Staffangymnasiet all the students have the opportunity to run a business through the young entrepreneurship program. This is to evolve their entrepreneurial skills and increase their interest for running a business.

The organisation of the School

The Director of Staffangymnasiet has the overall responsibility. Staffangymnasiet is then divided in three sectors.

Each sector is consisted of a range of programmes with one responsible principal.
